Motion:
Councilmembers Hotchkiss/Rowse that Council deny the appeal of John and Anna Campbell.

Amended Motion:
Councilmembers Hotchkiss/Rowse that Council deny the appeal of John and Anna Campbell and approve the proposed location and design of the accessible lift as presented to the Historic Landmarks Commission (HLC) on November 2, 2016 making the following findings:

1. The project fully complies with all applicable City Charter and Municipal Code requirements and is consistent with the design guidelines applicable to the location of the project because the accessible lift will provide ADA accessibility to the patio and restaurant and the trash enclosure is located beneath the front patio, enclosed by a roll up door, and concealed behind a gate.

2. The project design is compatible with the desirable architectural qualities and characteristics which are distinctive of Santa Barbara and of the particular neighborhood surrounding the project because the lift will provide ADA accessibility to the patio and restaurant without detracting from the improved appearance of the front patio and the trash enclosure is concealed beneath the front patio, enclosed by a roll up door, and concealed behind a gate.

3. The size, mass, bulk, height, and scale of the project is appropriate for its location and its neighborhood because the lift is incorporated into the existing mass of the front patio and the trash enclosure is located beneath the patio adding no additional mass to the project.

4. The design of the project is appropriately sensitive to adjacent Federal, State, or City Landmarks or other nearby designated historic resources, including City structures of merit, sites, or natural features because the lift is located within the approved footprint of the front patio and the trash enclosure is located beneath the front patio, enclosed by a roll up door, and concealed behind a gate.

5. The compatibility criteria regarding public views of the ocean and mountains is inapplicable to the application.

6. The compatibility criteria regarding the amount of open space and landscaping is inapplicable to the application.

(Cont'd)
15. (Cont'd)

The City Council finds that the Historic Landmark Commission's consideration of the proposed changes to the trash enclosure on April 6, 2016 was appropriately reviewed on the Consent Agenda in accordance with Section 3.2.6.G.1.b of Part III of the Historic Landmarks Commission General Design Guidelines and Meeting Procedures because the trash enclosure meets the minimum ordinance requirements, complements the building’s architecture, and is not within public view as it is tucked underneath the front patio, enclosed by a roll up door, and is set behind a concealing gate.

The City Council finds that the description of agenda item C. on the Historic Landmarks Commission Consent Agenda of April 6, 2016 afforded adequate notice of the business to be transacted or discussed in accordance with the Brown Act when it described the agenda item as the consideration of “proposed changes to trellis and trash enclosure” because the description provided sufficient information to put an interested party on notice that changes were occurring to the trash enclosure and that the term “enclosure” implies an exterior location for the trash disposal.

Vote on Amended Motion:
Unanimous voice vote.
